

7 out of 10 Granite Staters Support Medical Aid in Dying

HB 1283: It's About Compassion and Freedom

We represent the Granite Staters across the political and religious spectrums who want the option of medical aid in dying.¹

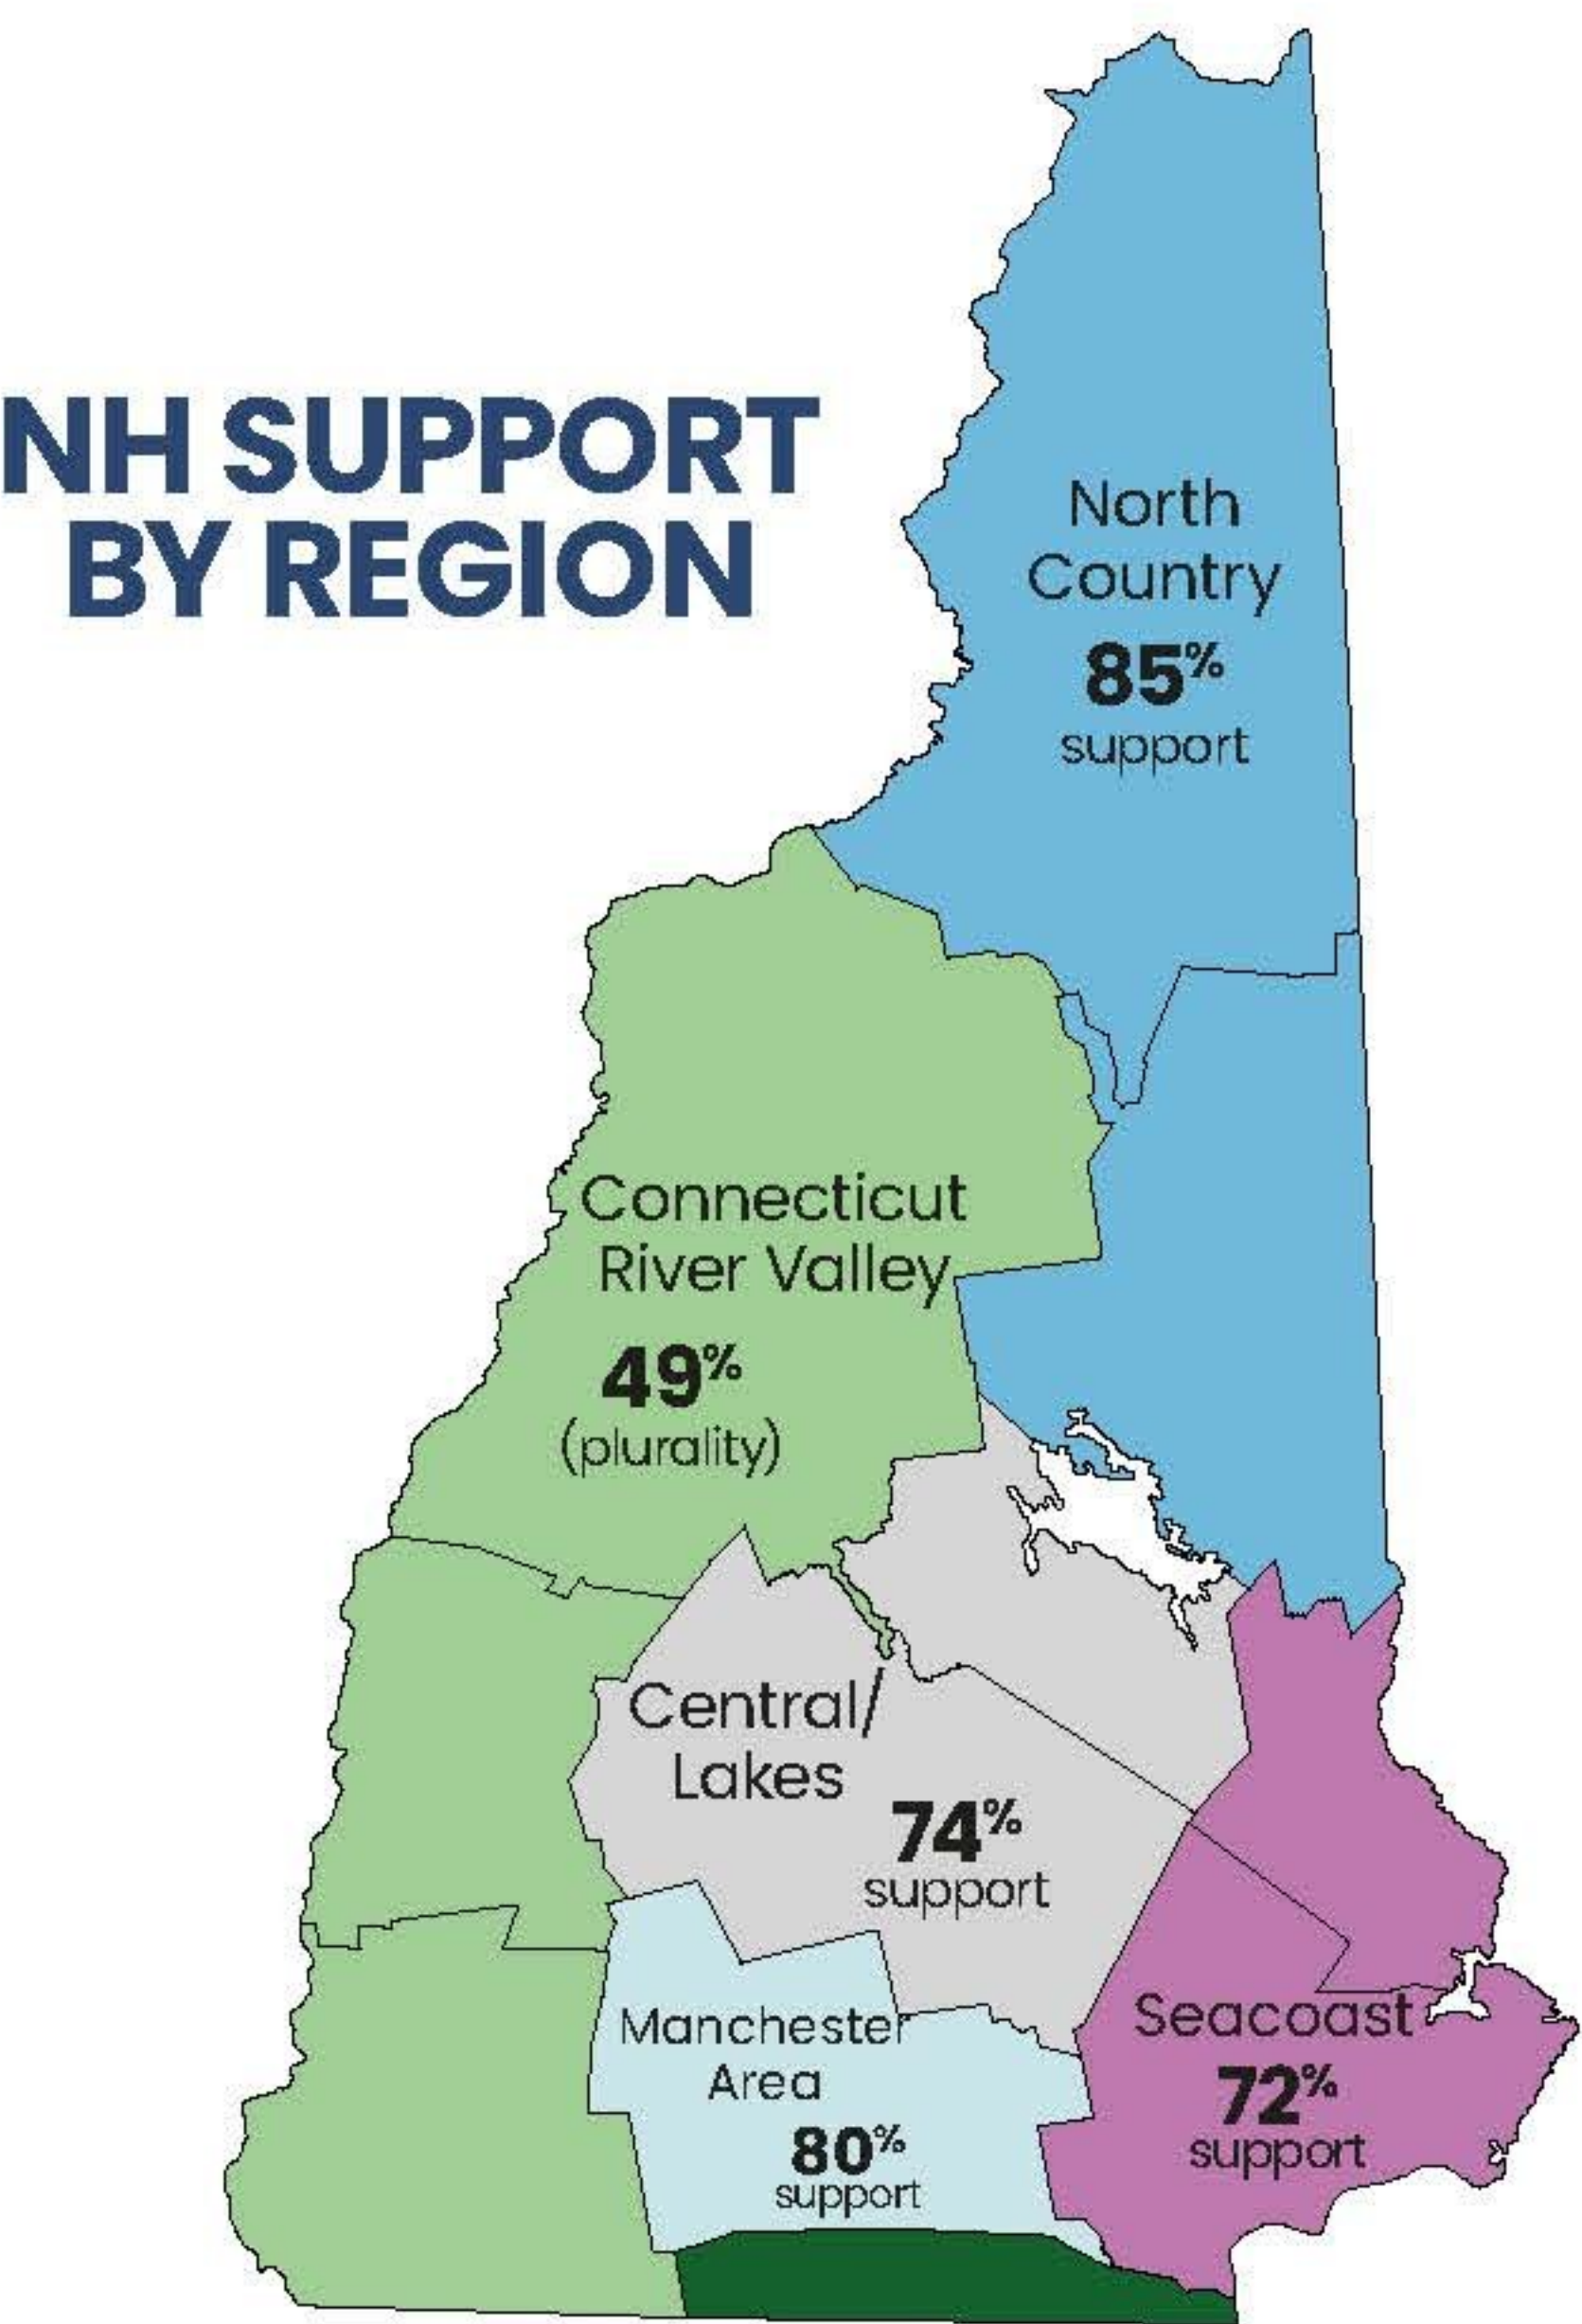

We urge our state senators to pass HB1283, the NH End of Life Options Act, that would allow use of medical aid in dying.² This bill provides mentally capable, terminally ill adult patients who have six months or less to live the option to request and use a prescription for medication to die peacefully in their sleep.

Ten other states provide this compassionate end-of-life care option, including neighboring Maine and Vermont. HB1283 supports our Granite State freedom to make the most profound decisions about our lives, according to our own beliefs, faith, and values.

As Gov. Chris Sununu said, "It's a very personal issue. It doesn't have a political divide on it. It's not a Republican-Democrat type thing."³

NH Wants End-of-Life Options

We call on the Senate to pass HB1283
